

ABOUT THE FESTIVAL:

WARSAW PHOTO DAYS FESTIVAL OF PHOTOGRAPHY WAS FOUNDED IN 2013 ON THE INITIATIVE OF THE WARSAW DISTRICT OF THE ASSOCIATION OF POLISH ART PHOTOGRAPHERS ZPAF - AN ORGANIZER OF THE EVENT. THE FESTIVAL WAS PLANNED AS A PLACE FOR MEETINGS AND PRESENTATIONS OF VARIOUS FORMS OF PHOTOGRAPHY, BOTH FROM A HISTORICAL PERSPECTIVE AND CURRENT ACTIVITIES.

2015 EDITION

The third edition of the festival will be held in November 2015. The theme is TESTOSTERONE. The Main Programme in Warsaw galleries will feature projects selected through a competition addressed to visual artists. We've expected themed photographic projects and multimedia forms with the use of photographs and /or video that visually analyze and problematize the idea of masculinity. Widely understood testosterone – used under the theme of the contest as an intellectual shortcut – is identified with the life force of the human species that drives the pace of men's and women's life, is subject to constant revisions by civilization and society, so in the physical and mental sphere, and is being redefined by successive generations and expressed in many ways. The projects prepared under the contest were supposed to help us to familiarize ourselves with the ways of photographic depiction of contemporary archetypes of masculinity, its attributes, the strengths and vulnerabilities.

Out of more than 400 applications our jury (**Michaela Bosáková, Katarzyna Majak, Jolanta Rycerska, Andrzej Zygmontowicz**) selected fifteen most interesting individual projects, which will be exhibited during WARSAW PHOTO DAYS 2015.
